EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the TITLE: Change the Title to: -- Batch process for producing chemical pulp by removing and reintroducing calcium-containing spent liquor in the digester--.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The claim requires removing portions of the displaced calcium-containing spent liquor from a batch digester, storing the calcium-containing spent liquor in a storage unit, and reintroducing the calcium-containing liquor back into the digester at a subsequent treatment stage while the lignocellulose-containing material continues to be treated while the calcium containing spent liquor is stored in the storage unit. The art of record does not teach such a process nor would the process be obvious over the art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
